WHEREAS, a county is authorized pursuant to Section 7-7-2203, M.C.A., to issue general obligation bonds pledging the general credit of the county for that purpose upon approval of the electorate of the county, provided that such indebtedness and all other indebtedness of the county does not exceed: (1) 11.25% of the taxable value of the property subject to taxation by the county as ascertained by the last completed assessment for state and county taxes previous to this date, plus (2) 33% of the taxable value of class eight property within the city or town for tax year 1995 multiplied by 11.25%, plus (3) 50% of the taxable value attributable to electrical generation property under Montana Code Annotated, Section 15-6-141 within the city or town for tax year 1999, multiplied by 11.25%, plus (4) 50% of the taxable value attributable to telecommunications property under Montana Code Annotated, Section 15-6-141 within the city or town for tax year 1999, multiplied by 11.25%; and

WHEREAS, a board of county commissioners is authorized pursuant to Section 7-7-2222, M.C.A., to call a bond election by adopting a resolution to that effect; and

WHEREAS, the Open Lands Board has received financial and professional assistance from the Trust For Public Lands; and

WHEREAS, the Open Lands Board has conducted an opinion poll throughout the County, the results of which indicate widespread support for the issuance by the County of general obligation bonds for the preservation of open space; and

WHEREAS, the Open Lands Board has requested the Board of County Commissioners (the "Board") to support the preservation of open space lands by seeking voter approval of general obligation bonds in an amount of up to \$10,000,000, for the purpose of preserving open space in Gallatin County by purchasing land and conservation easements from willing landowners for the following purposes: managing growth, preserving ranches and farms, protecting wildlife areas and water quality of streams and rivers, providing parks and recreation areas and paying costs associated with the sale and issuance of general obligation bonds, which bonds shall bear interest at a rate to be determined by the Board, payable semiannually during a term of not to exceed twenty (20) years and redeemable on any interest payment date after one-half of their term, with all expenditures based on recommendations of the Open Lands Board (citizen's advisory committee), after public comment, and subject to an independent audit; and

If authorized to issue and sell bonds for the purposes set forth in this resolution, the County will deposit the proceeds of such bonds, exclusive of accrued interest, in the Open Space Acquisition Bond Account, and used for the authorized purposes, consistent with the requirements in Section 8 hereof, as may be further augmented by a subsequent resolution or ordinance of the Board.

8. Procedure, Limitations and Expenditure of Open Space Bond Acquisition Account. With respect to the expenditure of funds from the Open Space Bond Acquisition Account, the Board hereby agrees and covenants that no expenditures will be made from the Open Space Bond Acquisition Account unless recommended by the Open Lands Board after public comment.

9. Reimbursement Expenditures.

(a) The United States Department of Treasury has promulgated final regulations governing the use of proceeds of tax-exempt bonds, all or a portion of which are to be used to reimburse the County for project expenditures paid by the County prior to the date of issuance of such bonds. Those regulations (Treasury Regulations, Section 1.150-2) (the "Regulations") require that the County adopt a statement of official intent to reimburse an original expenditure not later than 60 days after payment of the original expenditure. The Regulations also generally require that the bonds be issued and the reimbursement allocation made from the proceeds of the bonds within 18 months (or three years, if the reimbursement bond issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) after the later of (i) the date the expenditure is paid or (ii) the date the project is placed in service or abandoned, but (unless the issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) in no event more than three years after the date the expenditure is paid. The Regulations generally permit reimbursement of capital expenditures and costs of issuance of the bonds.

(b) Other than (i) expenditures to be paid or reimbursed from sources other than the bonds, (ii) expenditures permitted to be reimbursed under the transitional provision contained in Section 1.150-2(j)(2) of the Regulations, (iii) expenditures constituting preliminary expenditures within the meaning of Section 1.150-2(f)(2) of the Regulations, or (iv) expenditures in a "de minimus" amount (as defined in Section 1.150-2(f)(1) of the Regulations), no expenditures for the project have been paid by the County before the date 60 days before the date of adoption of this resolution.

(c) The County reasonably expects to reimburse the expenditures made for costs of the project out of the proceeds of bonds in an estimated maximum aggregate principal

amount of \$10,000,000 after the date of payment of all or a portion of the costs of the project. All reimbursed expenditures shall be capital expenditures, a cost of issuance of the bonds or other expenditures eligible for reimbursement under Section 1.150-2(d)(3) of the Regulations.

(d) As of the date hereof, there are no County funds reserved, allocated on a long-term basis or otherwise set aside (or reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside) to provide permanent financing for the expenditures related to the project, other than pursuant to the issuance of the bonds. The statement of intent contained in this resolution, therefore, is determined to be consistent with the County's budgetary and financial circumstances as they exist or are reasonably foreseeable on the date hereof.

(e) The County's financial officer shall be responsible for making the "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the bonds to reimburse the source of temporary financing used by the County to make prior payment of the costs of the project. Each allocation shall be evidenced by an entry on the official books and records of the County maintained for the bonds or the project and shall specifically identify the actual original expenditure being reimbursed.
