ADDENDUM NO. ONE

The following changes shall be noted by all interested bidders and shall be made part of the Contract Plans and Specifications. A signed original, e-mail, or facsimile photocopy of this Addendum will be acceptable to include with the bid documents.

1. CLARIFICATIONS

The following clarifications are provided to address questions asked prior to, during, and after the pre-bid meeting on February 24, 2022.

- It was asked during the pre-bid meeting if MDT will allow for fuel and steel price adjustments due to the project spanning over multiple years. Refer to Section 109.11 Fuel Price Adjustment, of the MDT Standard and Supplemental Specifications for Road and Bridge Construction and MDT Standard Special Provisions Section 106 Steel Price Adjustment for additional information and procedures.

- It was asked during the pre-bid meeting if there would be any opportunity for portions of the bond to be released, as schedules are completed, since the project will span over multiple years. Representatives from MDT indicated that bonding companies will typically release portions of the bond incrementally as progress payments are issued. Contractors should contact their bonding company for confirmation.

- An inquiry was made during the pre-bid meeting about MDT’s Traffic Control Rate Schedule. MDT’s most current rate schedule from their website shall be utilized, a copy of which is included with this addendum.
